

Don't complete this giveaway of the media to 4 corporations

Dear Sirs, You are selling out America if you de-regulate the TV market. We've already seen the political effects of allowing Clear Channel to control entire radio markets - they have used their power actively to attack artists and activists opposed to the outlook they are marketing to the nation. Enough.

Future generations will be judging you on your actions - think twice before you consign them to political servitude at the hands of a corporate oligarchy.

Sincerely,
Patrick Harley
Columbia, S.C.
